

Dear Client:

We have received calls from several clients requesting clarification on the status of Colorado Laboratory Services (CLS)'s United Healthcare contract.

Be assured that CLS maintains a long-term *regional* Provider Participation Agreement with United Healthcare\*. Because of this contract, we are a participating provider for United Healthcare. Doctors and patients may continue using our services as we remain a *regional* preferred provider.

It is important to refer laboratory work for United Healthcare members to a United Healthcare preferred provider—*like CLS*. If, however, your United Healthcare patients are referred to non-participating laboratories, they will be subject to higher health-care costs associated with other benefit plans.

Should you have any questions regarding our enrollment with this health plan, please feel free to contact your sales representative, or your United Healthcare representative.

Sincerely,

**Noel Maring**  
SVP/Chief Marketing Officer
